Circle
Retreat

A Weekend for Men

August 22–25, 2019

REGISTRATION IS NECESSARY

Once again, in a secluded Pacific Northwest location, A Gathering of Men will hold our annual August retreat, The Sacred Circle, in which a man is free to explore his full potential, delve into the shadow and find the genius of his core self.

Here a man is given a chance to experience the awesome power of a dedicated community of men who hold in trust a space for his quest in a safe and supportive environment. We are all on our own journey and have had our own Sacred Circle experiences over the years. Your experience and skills are needed!

In our time, bombarded with chaos and fear, men often fall victim to a society that has separated them from their core identity. Driven to “make it”, they strike out at perceived threats to their status and possessions. They become hostages to their careers and to a fear of loss. Their relationships turn into "win/lose" power struggles that make themselves or their partners victims.

The Sacred Circle is open to any man, regardless of age or physical limitation, who is willing to take up this challenge. This requires of a man the physical and emotional courage to push and explore his own limits. Our goal is to assist men in reconnecting to themselves, other men, partners and their community in a powerful, loving way. Come help us create the magic for our new brothers, and each other.

We will begin to set the stage for our renewal and for the transforming experience of new men on **Thursday, August 22, 2019 between noon and 6 pm**. Other entry times can be negotiated for those unable to begin on Thursday morning.
